Call For Submissions

The Government has decided to develop a National Substance Misuse Strategy to incorporate policy in relation to drugs and alcohol. The drugs policy element of this Strategy has already been agreed and published as the 'interim' National Drugs Strategy 2009-2016.

A Steering Group has been established to develop alcohol policies for an overall National Substance Misuse Strategy to cover the period up to 2016. This Group, jointly chaired by the Departments of Community, Rural & Gaeltacht Affairs and Health & Children, comprising representatives of the key statutory, community, voluntary and industry sectors, will develop proposals in this regard, for submission to Government.

To assist the Steering Group in defining the strategic direction that it should take in relation to alcohol policy over the coming years, interested parties are invited to submit views regarding the content of the integrated National Substance Misuse Strategy.

Relevant policy documents, including the Terms of Reference for the Steering Group and recent publications, are available on the respective websites of the Departments of Community, Rural & Gaeltacht Affairs www.pobail.ie and Health & Children www.dohc.ie .
