## Introduction

The HSE's Primary Care Reimbursement Service (PCRS) supports the delivery of a wide range of primary care services to the general public, through over 7,000 primary care contractors across a range of community health schemes. These schemes form the infrastructure through which the Irish Health System delivers a significant proportion of Primary Care to the public.

HSE PCRS made total payments and reimbursements of €2.5 billion in 2014 under the GMS (Medical Card), Drugs Payment, Dental Treatment, Long Term Illness and Community Ophthalmic Schemes.

Eligibility for medical cards (including GP visit cards) has increased by 66% since January 2005. Almost 2 million people or 44% of the population is covered by a medical card or a GP visit card. During 2014 3.5 million people were registered for Community Schemes services provided by General Practitioners, Pharmacists, Dentists and Optometrists or Ophthalmologists.

In December 2014, 98% of completed medical card applications were processed and issued within 15 days. Of the 2% which were not processed within target, the majority relate to applications where the income was in excess of the qualifying limits and a medical assessment was required.

HSE PCRS continues to develop its risk and control function to give assurance regarding expenditure on the community health schemes.

In 2014 the HSE established an expert panel to examine the range of medical conditions that should be considered as a basis for medical card eligibility. The report of the group (chaired by Prof. Frank Keane) along with an accompanying review of Medical Card application processing has provided the basis for significant changes in PCRS.

The implementation process which commenced in late 2014 includes the establishment of a Clinical Advisory Group, and this is continuing as an ongoing project.

On behalf of the HSE, I would like to thank all of our clients and contractors for their co-operation throughout 2014, and we look forward to working with you to continue to improve all of the services that we provide to the public into the future.

I would also like to take this opportunity to thank the staff in the Primary Care Reimbursement Service involved in the continued delivery of day to day services, for their contribution and commitment to the delivery of these vital support services to the public and to primary care contractors throughout the year.

## Schemes - Claim Reimbursement and Payment Arrangements

During 2014, HSE Primary Care Reimbursement Service reimbursed claims and made payments to General Practitioners (GPs), Community Pharmacists, Dentists and Optometrists/Ophthalmologists totalling €2,455m, in respect of medical card and national primary care schemes.

Claim data is processed and reimbursements are made by the Primary Care Reimbursement Service under the following Schemes:

### **General Medical Services (GMS)**

Persons who are unable without undue hardship to arrange general practitioner medical and surgical services for themselves and their dependants are eligible for the GMS Scheme. Drugs, medicines and appliances approved under the Scheme are provided through Community Pharmacists. In most cases the GP gives a completed prescription form to an eligible person, who takes it to any Pharmacy that has an agreement with the Health Service Executive to dispense drugs, medicines and appliances on presentation of GMS prescription forms. In rural areas a small number of GPs hold contracts to dispense drugs and medications to GMS cardholders who opt to have their medicines dispensed by him/her directly.

All GMS claims are processed and paid by the Primary Care Reimbursement Service. Since the 1st October 2010, an eligible person who is supplied a drug, medicine or medical or surgical appliance on the prescription of a Registered Medical Practitioner, Registered Dentist or Registered Nurse Prescriber, is charged a prescription charge by the Community Pharmacy Contractor, currently €2.50 per item subject to a limit of €25 per family per month (effective 1st December 2013). The prescription charge is recouped by HSE from the Pharmacist.

### **Drugs Payment Scheme (DPS)**

The Drugs Payment Scheme (DPS) provides for payment to the Pharmacist for the supply of medicines to individuals and families where the threshold of €144, effective from 1st January 2013, has been exceeded in a calendar month. In order to avail of the Drugs Payment Scheme a person or family must register for the Scheme with the HSE PCRS. Drugs, medicines and appliances currently reimbursable under the Scheme are listed on the HSE website. Other items which were reimbursable under the Drug Cost Subsidisation Scheme and Refund of Drugs Scheme continue, in certain circumstances, to be reimbursable under the Drugs Payment Scheme.

### Long Term Illness Scheme (LTI)

On approval by the Health Service Executive, persons who suffer from one or more of a schedule of illnesses are entitled to obtain, without charge, irrespective of income, necessary drugs/medicines and/or appliances under the LTI Scheme.

### **Dental Treatment Services Scheme (DTSS)**

Under the Dental Treatment Services Scheme GMS eligible adults have access to a range of treatments and clinical procedures comprised of Routine Treatments and Full Upper and Lower Dentures. Routine Treatments are available for all eligible persons. Dentists may also prescribe a range of medicines, as part of their treatment, to eligible persons.

## **European Economic Area (EEA)**

Residents from one of the other states of the European Economic Area, with established eligibility, who require emergency general practitioner services while on a temporary visit to the State are entitled to receive from a General Practitioner a GMS prescription form for necessary medication and to have such medication dispensed in a Pharmacy that has entered into an agreement with the Health Service Executive within the State.

## Schemes - Claim Reimbursement and Payment Arrangements continued

### **High Tech Arrangements (HT)**

Arrangements are in place for the supply and dispensing of High Tech medicines through Community Pharmacists. Such medicines are generally only prescribed or initiated in hospital and would include items such as anti-rejection drugs for transplant patients or medicines used in conjunction with chemotherapy or hormonal therapy. The medicines are purchased by the Health Service Executive and supplied through Community Pharmacists for which Pharmacists are paid a patient care fee. The cost of the medicines and patient care fees are paid by the Primary Care Reimbursement Service.

## **Primary Childhood Immunisation Scheme**

A National Primary Childhood Immunisation Scheme provides for immunisation of the total child population with the aim of eliminating, as far as possible, such conditions as Diphtheria, Polio, Measles, Mumps, Rubella and more recently Meningococcal C Meningitis. Payments to GPs under this Scheme are made by the Primary Care Reimbursement Service.

## Health (Amendment) Act 1996

Under the Health (Amendment) Act 1996 certain health services are made available without charge to persons who have contracted Hepatitis C directly or indirectly from the use of Human Immunoglobulin – Anti D or the receipt within the State of another blood product or blood transfusion. GP services, pharmaceutical services, dental services and optometric/ophthalmic services provided under the Act are paid for by the Primary Care Reimbursement Service.

#### **Methadone Treatment Scheme**

Methadone is prescribed by Doctors and dispensed by Pharmacists for approved clients under the Methadone Treatment Scheme – capitation fees payable to participating GPs and Community Pharmacists and claims by Pharmacists for the ingredient cost of the Methadone dispensed and the associated dispensing fees are processed and paid by the Primary Care Reimbursement Service.

# **HSE Community Ophthalmic Services Scheme** (HSE-COSS)

Under the Health Service Executive Community Ophthalmic Services Scheme, adult medical card holders and their dependants are entitled, free of charge, to eye examinations and necessary spectacles/appliances. Claims by Optometrists/Ophthalmologists are paid by the Primary Care Reimbursement Service. Claims for spectacles provided under the Children's Scheme are also paid by the Primary Care Reimbursement Service.

### **Immunisations for GMS Eligible Persons**

Agreement was reached between the Department of Health and the Irish Medical Organisation on fee rates to be applied to certain immunisations for GMS eligible persons. The immunisations encompassed by the agreement are – Pneumococcal, Influenza, Hepatitis B and the combined Pneumococcal/Influenza.

## Schemes - Claim Reimbursement and Payment Arrangements continued

### **General Practitioner Visit Card (GPVC)**

The GP Visit Card was introduced for people in Ireland who are not eligible for a GMS medical card, to obtain GP services free of charge. GP Visit Cards are provided to eligible individuals and families who meet the qualifying criteria. All applications for GP Visit Cards and associated GP claims are processed and reimbursed by the Primary Care Reimbursement Service.

### **Discretionary Hardship Arrangements**

Medical Card patients, for whom Non GMS reimbursable items have been prescribed, may make application to the HSE Local Health Office (LHO) for approval to have such items dispensed by a Community Pharmacist. Previously, the LHO reimbursed Community Pharmacists directly in respect of such prescribed items. In July 2009 reimbursement for these items transferred to the Primary Care Reimbursement Service.

# Centralised reimbursement of selected high cost drugs administered or dispensed to patients in hospitals

The HSE commenced the centralised reimbursement of selected Oncology and Hepatitis C drugs.

The National Cancer Control Programme (NCCP) established the National Cancer Drug Management Programme to develop and improve the care provided to patients receiving treatment with oncology drugs. A national management system for cancer drugs was set up within the PCRS to facilitate centralised reimbursement and data capture of selected high-cost oncology drugs. This allows national oversight of the expenditure on high-cost oncology drugs in line with approved indications, improved service planning and budgetary projections and a national approach to provision of oncology drugs.

The Hepatitis C drugs are dispensed to patients in the designated adult hepatology units.

# Centralised reimbursement of Outpatient Parenteral Antimicrobial Therapy (OPAT)

The HSE commenced the centralised reimbursement of Outpatient Parenteral Antimicrobial Therapy (OPAT) drugs, medicines and appliances administered by healthcare professionals or self-administered by patients in the community.

Persons who are unable without undue hardship to arrange General Practitioner medical and surgical services plus dental and optometric services for themselves and their dependants are provided with such services under the GMS Scheme. Since 1st October 2010, a person who is supplied by a Community Pharmacy Contractor with a drug, medicine or surgical appliance on the prescription of a Registered Medical Practitioner, Registered Dentist or Registered Nurse Prescriber is charged a prescription charge, currently €2.50 per item subject to a limit of €25.00 per family per month and this charge is recouped from payment to the Pharmacist. An eligible Person is entitled to select a GP of his/her choice, from among those GPs who have entered into agreements with the Health Service Executive. Drugs, medicines and appliances prescribed by participating GPs for their GMS patients are provided through Community Pharmacies. Dental and ophthalmic services are provided by Dentists and Optometrists/Ophthalmologists who have contracted with the Health Services Executive. GMS prescription forms may be dispensed in any Pharmacy that has an agreement with the Health Service Executive to dispense GMS prescription forms.

In rural areas, where a GP has a centre of practice three miles or more from the nearest Community Pharmacy participating in the Scheme, the GP dispenses for those persons served from the centre who opt to have their medicines dispensed by him/her. The number of eligible GMS persons at year end included 28,514 persons who were entitled and had opted to have their medicines dispensed by their GPs.Under the terms of the Drugs Payment Scheme, persons who do not have a medical card may apply for a Drugs Payment Scheme card on an individual or family unit basis. Prescribed medicines, which are reimbursable under the GMS Scheme, costing in excess of a specified amount per month, €144 during 2014, per family, is claimed by the Pharmacy and is paid by the Primary Care Reimbursement Service.

On approval by the Health Service Executive, persons who suffer from one or more of a schedule of illnesses are entitled to obtain, without charge, irrespective of income, necessary drugs/medicines and/or appliances under the LTI Scheme. The Primary Care Reimbursement Service makes payments on behalf of the Health Service Executive for LTI claims submitted by Pharmacies.

## Payments to General Practitioners 2014

Fees €320.27m Allowances €132.98m

Payments to General Practitioners are categorised as fees and/or allowances. For the majority of GPs who operate under the 1989 agreement the principal fee is the capitation per person which is weighted for gender and age − capitation fees totalled €225,055,022 in 2014, a decrease of €12,895,613, when compared to 2013. Fees totalling €726,766 were paid to six GPs who continue to provide services under the Fee-Per-Item of service agreements.

Apart from 'Out-of-Hours' fees and fees for a range of special services, the cost of services provided in normal hours by GPs for GMS persons, including the prescribing of necessary medicines, is encompassed by the capitation fee. All GMS persons can avail of full GP services and in many cases they can benefit from specialist clinics provided by GPs for issues such as Women's Health, Family Planning and Asthma.

In addition to a capitation fee an 'Out-of-Hours' fee is payable for non routine consultations when a GMS cardholder is seen by their GP or another GP acting on his/her behalf from 5 pm in the evening to 9 am on the following morning (Monday to Friday) and all hours on Saturdays, Sundays and Bank Holidays. 'Out-of-Hours' claims decreased to 806,522 in 2014 compared with 890,914 in 2013 − expenditure on 'Out-of-Hours' claims during 2014 decreased to €30,686,170 from €34,478,055 in 2013. Special fees are payable for a range of additional services such as excisions, suturing, vaccinations, catheterization, family planning etc. 938,890 special services were claimed in 2014 − with expenditure totalling €21,827,450. The most frequently claimed special services in 2014 were Influenza Vaccinations (375,660), Excisions (159,334) and E.C.G. treatments (141,717).

Annual and study leave together with locum, nursing and other practice support payments account for most of the €132,983,184 of allowances paid to GPs in 2014. The amount paid in 2013 was €136,622,499.

A majority of GPs are paid an annual capitation fee for each eligible person — the rate of payment is determined by the age/gender of the person.

A minority of GPs (6) who have continued to provide services under the Fee-per-Item of Service agreement are paid a fee for each Doctor/Patient contact.

A Special Type Consultation (STC) fee may be claimed when a GP provides a service to a GMS eligible person who is not on their GMS panel.

Such GMS eligible persons may require medical services such as an Out-of-Hours, or emergency consultation, or they may be temporarily resident in an area not served by their GP.

General Practitioners can claim fees for special items of service provided to eligible persons under the Capitation Agreement and the Fee-per-Item Agreement.

Note: \* In rural areas where a Doctor has a centre of practice 3 miles or more from the nearest Community Pharmacy, the Doctor dispenses to persons who opt for this service. The Doctor is paid a dispensing fee for each such person. A Doctor's medicine requirements are obtained on a Stock Order from a Community Pharmacy — the stock ordered is approved in advance by a HSE Area.

A GMS cardholder who is provided with a properly completed GMS prescription form by his or her GP can choose to have their prescription forms dispensed in any of the Pharmacies who have entered into agreements with the Health Service Executive for the provision of services under Section 59 of the Health Act, 1970.

In 2014 there were 19.35m GMS prescription forms containing over 59.40m prescription items which were dispensed at a cost of €1,111,213,807. (This figure excludes the cost of GMS stock orders of €7,731,243 in 2014). This equates to an average cost of €18.71 per dispensed item. During 2014, 93% of all GMS cardholders availed of prescription items at an average cost of €677.39 per person.

Payments made to Pharmacists under the GMS and DTSS Schemes are inclusive of the ingredient cost of medicines, dispensing fees, and VAT where applicable.

Under Drug Payment Scheme (DPS), Long Term Illness (LTI) and European Economic Area (EEA) Schemes Pharmacists are reimbursed the ingredient cost of items dispensed, dispensing fees and VAT where applicable.

There were 66,264 persons registered under High Tech Arrangements and patient care fees of €17.30m were paid to pharmacists under these arrangements.

During 2014 the Health Service Executive processed pharmacy claims valued at €779.74m in respect of the three highest value categories. The highest value category of reimbursements was for medication acting on the Nervous System – €350.91m (GMS €297.38m, DPS €34.58m and LTI €18.95m). The second highest reimbursement category was for medication acting on the Cardiovascular System €222.43m (GMS €179.07m, DPS €23.35m, LTI €20.01m). The third highest value category reimbursed was for medication to treat conditions of the Alimentary Tract and Metabolism valued at €206.40m (GMS €143.14m, DPS €16.64m and LTI €46.62m).

## Table 38 Notes on Commonly Prescribed Medications Classified in Tables 39 to 42

Tables 39, 40, 41 and 42 describe expenditure on medication by ranking the medication in clinical groups according to ATC class 4. The highlighted header describes the particular system of the body to which the clinical group is related (e.g. Cardiovascular system). Each subheading describes the clinical group of medications (e.g. proton pump inhibitors). Within each clinical group the medications are ranked in order of the frequency that the items were prescribed and reimbursed.
