

Normative Influences

Please say how often you think each of the following people use each of the following. (Tick one box for each one)

How often do you think

Never; 1-2 a year or less; About 3-6 times a year; About once a month; More often than once a month

- (a) Your best friend smokes cannabis [] [] [] [] []
- (b) Your other good friends smoke cannabis [] [] [] [] []
- (c) Other people in your school smoke cannabis [] [] [] [] []
- (d) People in other schools smoke cannabis [] [] [] [] []
- (e) Your best friend use solvents (glue etc.) [] [] [] [] []
- (f) Your other good friends use solvents [] [] [] [] []
- (g) Other people in your school use solvents [] [] [] [] []
- (h) People in other schools use solvents [] [] [] [] []
- (i) Your best friend use ecstasy [] [] [] [] []
- (j) Your other good friends use ecstasy [] [] [] [] []
- (k) Other people in your school use ecstasy [] [] [] [] []
- (l) People in other schools use ecstasy [] [] [] [] []

Calculation Indices: Code responses as follows: never = 1 to 5 = more often than once a month. The mean of items (a) to (d) inclusive indicate level of normative support (through behaviour) for use of cannabis, items (e) to (h) provide the corresponding information on solvents, while (i) to (l) give the same information on ecstasy. The grand mean of all items provide a combined measure of normative support (through behaviour).
