#### **SOCRATES**

## The Stages of Change Readiness and Treatment Eagerness Scale

SOCRATES is an experimental instrument designed to assess readiness for change in alcohol abusers. The instrument yields three factorially-derived scale scores: Recognition (Re), Ambivalence (Am), and Taking Steps (Ts). It is a public domain instrument and may be used without special permission.

Answers are to be recorded directly on the questionnaire form. Scoring is accomplished by transferring to the SOCRATES Scoring Form the numbers circled by the respondent for each item. The sum of each column yields the three scale scores. Data entry screens and scoring routines are available.

These instruments are provided for research uses only. Version 8 is a reduced 19-item scale based on factor analyses with prior versions. The shorter form was developed using the items that most strongly marked each factor. The 19-item scale scores are highly related to the longer (39 item) scale for Recognition ( $\underline{r} = .96$ ), Taking Steps (.94), and Ambivalence (.88). We therefore currently recommend using the 19-item Version 8 instrument.

Psychometric analyses revealed the following psychometric characteristics of the 19-item SOCRATES:

|              | Cronbach | Test-retest Reliability |         |  |  |
|--------------|----------|-------------------------|---------|--|--|
|              | Alpha    | Intraclass              | Pearson |  |  |
| Ambivalence  | .6088    | .82                     | .83     |  |  |
| Recognition  | .8595    | .88                     | .94     |  |  |
| Taking Steps | .8396    | .91                     | .93     |  |  |

Various other forms of the SOCRATES have been developed. These will be migrated into shorter 8.0 versions as psychometric studies are completed. They are:

| 8D      | 19-item drug/alcohol questionnaire for clients                |
|---------|---|
| 7A-SO-M | 32-item alcohol questionnaire for significant others of males |
| 7A-SO-F | 32-item alcohol questionnaire for SOs of females              |
| 7D-SO-F | 32-item drug/alcohol questionnaire for SOs of females         |
| 7D-SO-M | 32-item drug/alcohol questionnaire for SOs of males           |

The parallel SO forms are designed to assess the motivation for change of significant others (not collateral estimates of clients' motivation). The SO forms lack a Maintenance scale, and therefore are 32 items in length.

Prochaska and DiClemente have developed a more general stages of change measure known as the University of Rhode Island Change Assessment (URICA). The SOCRATES differs from the URICA in that SOCRATES poses questions specifically about alcohol or other drug use, whereas URICA asks about the client's "problem" and change in a more general manner.

# Personal Drinking Questionnaire (SOCRATES 8A)

INSTRUCTIONS: Please read the following statements carefully. Each one describes a way that you might (or might not) feel *about your drinking*. For each statement, circle one number from 1 to 5, to indicate how much you agree or disagree with it *right now*. Please circle one and only one number for every statement.

|  | <b>NO!</b><br>Strongly<br>Disagree | <b>No</b><br>Disagree | ?<br>Undecided or<br>Unsure | <b>Yes</b><br>Agree | <b>YES!</b><br>Strongly Agre |
|--|------------------------------------|-----------------------|-----------------------------|---------------------|------------------------------|
| 1. I really want to make changes in my drinking.   | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 2. Sometimes I wonder if I am an alcoholic.  | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 3. If I don't change my drinking soon, my problems are going to get worse.                                     | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 4. I have already started making some changes in my drinking.  | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 5. I was drinking too much at one time, but I've managed to change my drinking.                                | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 6. Sometimes I wonder if my drinking is hurting other people.  | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 7. I am a problem drinker.   | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 8. I'm not just thinking about changing my drinking, I'm already doing something about it.                     | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 9. I have already changed my drinking, and I am looking for ways to keep from slipping back to my old pattern. | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 10. I have serious problems with drinking.   | 1                                  | 2                     | 3                           | 4                   | 5                            |

|   | <b>NO!</b><br>Strongly<br>Disagree | <b>No</b><br>Disagree | ?<br>Undecided or<br>Unsure | <b>Yes</b><br>Agree | YES!<br>Strongly Agree |
|---|------------------------------------|-----------------------|-----------------------------|---------------------|------------------------|
| 11. Sometimes I wonder if I am in control of my drinking.   | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 12. My drinking is causing a lot of harm.   | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 13. I am actively doing things now to cut down or stop drinking.  | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 14. I want help to keep from going back to the drinking problems that I had before.                                   | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 15. I know that I have a drinking problem.  | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 16. There are times when I wonder if I drink too much.  | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 17. I am an alcoholic.  | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 18. I am working hard to change my drinking.  | 1                                  | 2                     | 3                           | 4                   | 5                      |
| 19. I have made some changes in my drinking, and I want some help to keep from going back to the way I used to drink. | 1                                  | 2                     | 3                           | 4                   | 5                      |

## Personal Drug Use Questionnaire (SOCRATES 8D)

INSTRUCTIONS: Please read the following statements carefully. Each one describes a way that you might (or might not) feel *about your drug use*. For each statement, circle one number from 1 to 5, to indicate how much you agree or disagree with it *right now*. Please circle one and only one number for every statement.

|  | <b>NO!</b><br>Strongly<br>Disagree | <b>No</b><br>Disagree | ?<br>Undecided or<br>Unsure | <b>Yes</b><br>Agree | <b>YES!</b><br>Strongly Agre |
|--|------------------------------------|-----------------------|-----------------------------|---------------------|------------------------------|
| 1. I really want to make changes in my use of drugs.   | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 2. Sometimes I wonder if I am an addict.   | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 3. If I don't change my drug use soon, my problems are going to get worse.                                     | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 4. I have already started making some changes in my use of drugs.  | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 5. I was using drugs too much at one time, but I've managed to change that.                                    | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 6. Sometimes I wonder if my drug use is hurting other people.  | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 7. I have a drug problem.  | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 8. I'm not just thinking about changing my drug use, I'm already doing something about it.                     | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 9. I have already changed my drug use, and I am looking for ways to keep from slipping back to my old pattern. | 1                                  | 2                     | 3                           | 4                   | 5                            |
| 10. I have serious problems with drugs.  | 1                                  | 2                     | 3                           | 4                   | 5                            |

## **SOCRATES Profile Sheet (19-Item Version 8A)**

INSTRUCTIONS: From the SOCRATES Scoring Form (19-Item Version) transfer the total scale scores into the empty boxes at the bottom of the Profile Sheet. Then for each scale, CIRCLE the same value above it to determine the decile range.

| DECILE<br>SCORES                            | Recognition | Ambivalence | Taking Steps |
|---|-------------|-------------|--------------|
| 90 Very<br>High                             |             | 19-20       | 39-40        |
| 80  |             | 18          | 37-38        |
| 70 High                                     | 35          | 17          | 36           |
| 60  | 34          | 16          | 34-35        |
| 50 Medium                                   | 32-33       | 15          | 33           |
| 40  | 31          | 14          | 31-32        |
| 30 Low                                      | 29-30       | 12-13       | 30           |
| 20  | 27-28       | 9-11        | 26-29        |
| 10 Very Low                                 | 7-26        | 4-8         | 8 - 25       |
| RAW<br>SCORES<br>(from<br>Scoring<br>Sheet) | Re=         | Am=         | Ts=          |

These interpretive ranges are based on a sample of 1,726 adult men and women presenting for treatment of alcohol problems through Project MATCH. Note that individual scores are therefore being ranked as low, medium, or high *relative to people already presenting for alcohol treatment*.

## **Guidelines for Interpretation of SOCRATES-8 Scores**

Using the SOCRATES Profile Sheet, circle the client's raw score within each of the three scale columns. This provides information as to whether the client's scores are low, average, or high *relative* to people already seeking treatment for alcohol problems. The following are provided as general guidelines for interpretation of scores, but it is wise in an individual case also to examine individual item responses for additional information.

## RECOGNITION

HIGH scorers directly acknowledge that they are having problems related to their drinking, tending to express a desire for change and to perceive that harm will continue if they do not change.

LOW scorers deny that alcohol is causing them serious problems, reject diagnostic labels such as "problem drinker" and "alcoholic," and do not express a desire for change.

## **AMBIVALENCE**

HIGH scorers say that they sometimes *wonder* if they are in control of their drinking, are drinking too much, are hurting other people, and/or are alcoholic. Thus a high score reflects ambivalence or uncertainty. A high score here reflects some openness to reflection, as might be particularly expected in the contemplation stage of change.

LOW scorers say that they do not wonder whether they drink too much, are in control, are hurting others, or are alcoholic. Note that a person may score low on ambialence either because they "know" their drinking is causing problems (high Recognition), or because they "know" that they do not have drinking problems (low Recognition). Thus a low Ambivalence score should be interpreted in relation to the Recognition score.

## **TAKING STEPS**

HIGH scorers report that they are already doing things to make a positive change in their drinking, and may have experienced some success in this regard. Change is underway, and they may want help to persist or to prevent backsliding. A high score on this scale has been found to be predictive of successful change.

LOW scorers report that they are not currently doing things to change their drinking, and have not made such changes recently.
