OFFICE OF THE REVENUE COMMISSIONERS STATISTICAL REPORT 2000

Introduction

This Statistical Report contains detailed information (in the form of text, tables and notes) on all the taxes and duties for which the Office of the Revenue Commissioners is responsible. The summaries of legislation and the brief descriptions preceding certain statistical tables are presented to assist the reader and should not be taken as a precise interpretation of the law. For that purpose, reference should be made to the various Statutes and the cases relating thereto decided in the Courts.

Where appropriate, monetary amounts are shown in both Irish pounds (£) and Euros (\in).

The Report is set out under the following main headings:

•	Total Revenue	Page 5
•	Excise	11
•	Stamp Duties	35
•	Capital Acquisitions Tax	39
•	Residential Property Tax	43
•	Income Tax	45
•	Income Distribution Statistics	63
•	Corporation Tax	95
•	Corporation Tax Distribution Statistics	97
•	Capital Gains Tax	103
•	Value Added Tax	107
•	Sheriff and Solicitor Enforcement	111

If readers have any comments on, or suggested improvements to the contents of this Statistical Report, it would be appreciated if they would do so to -

Logistics Branch, Revenue Commissioners, Wicklow House, South Great George's St., FREEPOST Dublin 2.

If you wish, you can access the Report on the Revenue Web Site @ www.revenue.ie

Total Revenue

- Table TR1. Gross Receipts
- Table TR2. Net Receipts
- Table TR3. Net Receipts as a percentage of GDP
- Table TR4. Gross Receipts and Cost of Administration
- Table TR5. Cost of Administration (main elements)

The particulars of the Revenue Receipts in the year ended 31 December, 2000 are given in Table TR1.

Table TR2 contains net receipts of revenue for the year ended 31 December, 2000. Particulars are also given for the three preceding financial periods. Further details in regard to each separate duty are given in the relevant Tables.

The "Gross Receipts" of any duty or tax for any given financial year means the aggregate amount of duty or tax actually collected or brought into the Revenue accounts within that year, no matter for what year the duty or tax may have been assessed or charged. It thus includes arrears of previous years.

The "Net Receipt" means the "Gross Receipt" after deduction of drawbacks, repayments, etc., made within the same year. These drawbacks, repayments, etc., may similarly relate to duty or tax paid in previous years.

Excise Licences:-

• Table EX17. Numbers and Net Receipts 1998 - 2000

1. Customs Duties and Excise Duties, are, generally speaking, imposed in respect of transactions or events and not by reference to any period of time. The general statistics of these duties, for any year, thus relate, broadly, to the actual cash receipts, etc., of revenue within that year.

2. In Tables relating to Excise duties the quantities of commodities shown as retained for home use (i.e. net quantities on which duty was paid after allowing for quantities on which duty was repaid, e.g. as drawback) in the respective financial years may differ from the quantities actually consumed in these years, owing to clearances being delayed or advanced, as the case may be, e.g., in anticipation of Budget changes or because of international developments.

EXCISE

Main Excise Duty Rates 1998-2000

EXCISE DUTY ON SPIRITS

General

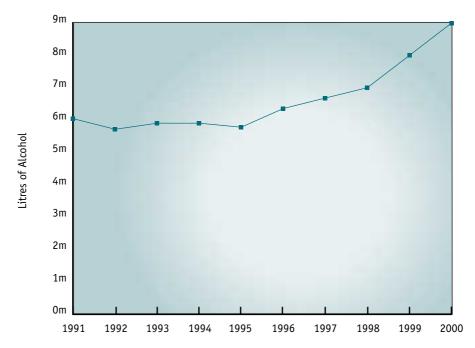

For excise purposes, the strength of spirits is expressed by reference to alcoholic strength by volume and the rates of excise duty in terms of alcohol content. "Alcoholic strength by volume" means the ratio of the volume of alcohol present in a product at a temperature of 20°C to the total volume of the product at the same temperature, the ratio being expressed as a percentage and "alcohol" means pure ethyl alcohol.

Betting Duty, Bookmaking Premises Duty and Bookmakers' Licence Duty

An Excise Duty is payable on bets entered into with a bookmaker. Bets on horse races or greyhound coursing (including racing) contests made at the venue where the races or coursing contests take place, are exempt from this duty.

EXCISE DUTY AND VEHICLE REGISTRATION TAX (VRT) ON MOTOR VEHICLES AND MOTOR CYCLES

Up to January 1993 motor vehicles manufactured in, or imported into, the State were liable to Excise Duty. Due to the implementation of the Single Market, a Vehicle Registration Tax was introduced in place of the existing Excise Duty. The new VRT rates were calculated so as to leave the overall level of taxation on cars unchanged. They differ from Excise rates in two respects; firstly, duty is charged on the open market selling price (OMSP) instead of the recommended retail selling price (RRSP) and the former is typically 10% lower than the latter. Secondly the VRT take from a car is designed to be equivalent to the old Excise Duty plus VAT on Excise. VRT receipts for 1993 and later, are therefore not directly comparable with previous years Excise Duty receipts.

Categories of Vehicles

Under the Excise Duty system motor vehicles were separated into two categories, A and B as well as motorcycles. The VRT system introduced two additional categories C and D.

"Categories A1, A2 and A3"	Cars
"Category B"	Car Derived Vans
"Category C"	Trucks, Large Vans, Tractors and Buses
"Category D"	Vehicles other than the above such as Fire Engines, Ambulances and Road Rollers.

VRT (Table EX9)For Categories A and B, VRT is an ad valorem duty based on the Open Market Selling Price. VRT on Category C is a fixed amount per vehicle and there is no VRT payable on Category D vehicles. The VRT on motor cycles is based on the cubic capacity of the engine.

Current Rate of VRT

Category A1	with	e hicle an engine cc less than or equal to Dc.c.	-	Rate 22.50% of chargeable value or £250, whichever is greater.
A2		an engine cc exceeding 1400c.c. not exceeding 2000 c.c.	-	25.00% of chargeable value or £250, whichever is greater.
A3	with	an engine cc exceeding 2000 c.c.	-	30.00% of chargeable value or £250, whichever is greater.
В			-	13.30% of chargeable value or £100, whichever is greater.
С			-	£40 per vehicle
D			-	nil
Motorcyc	cles	with internal combustion engine up to 350 c.c.	-	£2.00 per c.c.
		with internal combustion engine exceeding 350 c.c.	-	£2.00 per c.c. for the first 350 c.c. plus £1.00 for every additional c.c.
		propelled by means other than internal combustion engine	-	equal to amount payable on a motorcycle propelled with an internal combustion engine with same power output

(1) These oils are used mainly for agriculture, industrial and heating purposes.

(2) There is a full repayment of duty on these oils when used in the engines of sea fishing boats and a partial repayment when used in horticulture production.

(3) This category refers to Kerosene only. Prior to 1999 clearances of Kerosene are included with Other Oils (1) (2). A separate excise rate for Kerosene was introduced w/e/f 1st. December 1999

(4) A full rebate of duty is allowed on this oil.

Stamp Duties

- Table SD1. Classification of Net Receipt
- Table SD2. Other statistics relating to Stamp Revenue in the six years ended 2000
- Table SD3. Net Receipts of fees collected by means of Stamps

Stamp duties are charged mainly on legal and commercial instruments and in respect of certain transactions. With few exceptions, the instruments affected are set out in Schedule 1 to the Stamp Duties Consolidation Act, 1999.

Table SD1 classifies the net receipts from stamp duties under five main categories of charge which are as follows:

(1) Conveyances of lands, houses and other property, leases, mortgages and settlements

Stamp duty is charged ad valorem on the consideration for the sale of the property. The rates of duty now in force are as follows:

		Residential				
Consideration	Non-Residential	First Time Purchaser	Other Owner Occupier	Investor		
Not exceeding £5,000	Nil	Nil	Nil	9.00%		
£5,001 - £10,000	1%	Nil	Nil	9.00%		
£10,001 - £15,000	2%	Nil	Nil	9.00%		
£15,001 - £25,000	3%	Nil	Nil	9.00%		
£25,001 - £50,000	4%	Nil	Nil	9.00%		
£50,001 - £60,000	5%	Nil	Nil	9.00%		
Exceeding £60,000	6%	_	_	_		
£60,001 - £100,000	_	Nil	Nil	9.00%		
£100,001 - £150,000	_	Nil	3.00%	9.00%		
£150,001 - £200,000	_	3.00%	4.00%	9.00%		
£200,001 - £250,000	_	3.75%	5.00%	9.00%		
£250,001 - £300,000	_	4.50%	6.00%	9.00%		
£300,001 - £500,000	_	7.50%	7.50%	9.00%		
Exceeding £500,000	-	9.00%	9.00%	9.00%		

In the case of gifts, the duty is charged at the same rates on the value of the property. Where the transfer is between certain classes of relatives, the maximum rate is one half of the above rates whether the conveyance is by way of gift or sale.

The ad valorem rates apply also to the consideration, other than the rent, in the case of leases.

Various exemptions and reliefs have been provided for. For example, certain transfers and leases of houses and apartments are exempt from stamp duty. Mortgages not exceeding £20,000 are exempt from stamp duty. Where that sum is exceeded, the rate is 0.1% of the amount secured, subject to a maximum duty of £500.

(2) Transactions in Stocks and Shares

The main item in this category is transfers of stocks and shares by way of sale. Such transfers attract duty at the rate of 1% of the consideration. In the case of gifts the duty is charged at the same rate on the value of the stocks and shares.

(3) Companies Capital Duty

Companies capital duty is imposed at the rate of 1% on the assets contributed to a capital company.

(4) Cheques, Bills of Exchange, etc.

Cheques, drafts, bills of exchange and promissory notes are chargeable with duty of 7p. Credit cards and charge cards are chargeable with a stamp duty of £15 p.a. and ATM cards with a stamp duty of £5 p.a.

(5) Insurance and Miscellaneous

In the case of policies of life insurance, the duty is payable at the rate of 0.1% of the sum insured (where that sum exceeds ± 50). A stamp duty is levied at the rate of 2% on premiums received by insurance companies from certain classes of non-life insurance business. Policies of non-life insurance are subject to a stamp duty of ± 1 .

The miscellaneous category includes items such as the levy on "section 84" loans, penalties and miscellaneous documents which have not been classified.

Statistics relating to instruments and to the amount of fees collected by means of stamps are contained in Tables SD2 and SD3 respectively.

Capital Acquisitions Tax

•	Table CAT1.	Exchequer Receipt and Net Receipt
•	Table CAT2.	Distribution of Net Receipt for Capital Acquisitions Tax classified under Inheritance Tax, Gift Tax, Discretionary Trust Tax and Probate Tax
•	Table CAT3.	Gifts and Inheritances taken on or after 1 December, 1999 - Rate of Tax

Capital acquisitions tax comprises gift tax, inheritance tax, discretionary trust tax and probate tax.

(a) Gift Tax and Inheritance Tax

Gift tax is charged on taxable gifts taken on or after 28 February, 1974, and inheritance tax is charged on taxable inheritances taken on or after 1 April, 1975. An inheritance is a gratuitous benefit taken on a death and a gift is a gratuitous benefit taken otherwise than on a death.

The tax is charged on the taxable value of the gift or inheritance. The taxable value is arrived at by deducting from the market value of the property comprised in the gift or inheritance permissible debts and incumbrances and any consideration paid by the beneficiary.

Once the taxable value of the gift or inheritance has been determined the amount of tax payable will depend on whether the appropriate tax-free threshold has been exceeded and on the rate of tax in force (see Table CAT3).

There are three different group thresholds each one determined by the relationship between the beneficiary and the disponer i.e.

- (a) £300,000: this applies where the beneficiary is a child, or a minor child of a deceased child, of the disponer. It also applies in certain circumstances to nephews and nieces of the disponer and to parents who take an inheritance from a deceased child;
- (b) £30,000: included in this class are brothers, sisters, nephews, nieces and grandchildren of the disponer; and
- (c) £15,000: this applies to a beneficiary who does not come under either of the above class thresholds.

The group thresholds - £300,000, £30,000 and £15,000 were introduced on 1 December 1999 and apply for the year 2000. The thresholds will be indexed by reference to the Consumer Price Index from 1 January 2001.

All gifts and inheritances taken by a beneficiary on or after 2 December 1988 which come within the same group threshold are aggregated to determine the amount of tax payable on the current gift or inheritance.

Various exemptions from gift and inheritance tax have been provided for. For example, the first £1,000 taken as a gift by a beneficiary from a disponer in any one year is exempt from tax as are gifts and inheritances taken by one spouse from the other.

In addition to the exemptions various reliefs, which are subject to certain conditions being satisfied, apply i.e.

- Agricultural Relief. This relief operates by reducing the market value of agricultural property;
- Business Relief. The relief is granted by reducing the taxable value of business property; and
- *Dwelling-house Exemption*. The exemption applies to a gift or inheritance of a dwelling-house taken on or after 1 December, 1999, provided certain conditions are fulfilled.

(b) Discretionary Trust Tax

A once-off inheritance tax applies to property subject to a discretionary trust on 25 January, 1984, or becoming subject to a discretionary trust on or after that date. The current rate of tax is 6%. In certain cases the 6% rate can be reduced to 3%.

An annual inheritance tax at the rate of 1% applies to property subject to a discretionary trust on 5 April in each year commencing with the year 1986. Both of these taxes are referred to as discretionary trust tax in this Report.

(c) Probate Tax

A probate tax of 2% applies to estates valued in excess of an exemption threshold. This threshold is £40,000 for deaths occurring in 2000. This tax was abolished in respect of deaths occurring on or after 6 December, 2000.

Particulars of the Exchequer and net receipt of capital acquisitions tax are shown in Table CAT1 and particulars of the distribution of the net receipt of capital acquisitions tax are shown in Table CAT2.

Residential Property Tax (RPT)

• Table RPT1. Exchequer Receipt and Net Receipt

An annual tax was chargeable on the market value of residential property in Ireland owned and occupied by a person on 5 April in each year. The charge extended to residential property situated abroad if the person was domiciled in Ireland on that date. Irrespective of the person's actual tenure of interest in property owned by him or her, the market value was calculated as if s/he had an unencumbered fee-simple interest in the property. The tax was charged at the rate of 1.5% on the excess of the market value of all residential properties of a person over a market value exemption limit, and was payable provided the income of the household exceeded an income exemption limit. These exemption limits were £101,000 and £30,100 respectively for the valuation date 5 April, 1996. This was the last full year of operation of RPT. RPT was abolished by secion 131 of the Finance Act, 1997, in respect of valuation dates ending on or after 5 April, 1997. Even though RPT has been abolished the Clearance Certificate procedure remains in place in relation to the sale of certain residential properties to assist Revenue in the collection of outstanding tax.

Two types of marginal relief from the tax were provided, the first applying where the household income exceeded the appropriate income exemption limit by $\pm 10,000$ or less ($\pm 15,000$, or less for owner(s) aged 65 or over) and the second reducing the tax of an assessable person by 1/10th for each qualifying child.

Particulars of the Exchequer and net receipt of residential property tax are shown in Table RPT1.

Table RPT1

Exchequer Receipt and Net Receipt

Year	Exchequer Receipt	Net Receipt
1993	£9,048,000	£8,562,199
	€11,488,590	€10,871,750

- Table IT6. Cost of allowances and reliefs 1997-98 and 1998-99

The law relating to income tax was consolidated in the Taxes Consolidation Act, 1997.

Broadly speaking, income tax is charged on -

- (i) all income, wheresoever it arises, accruing to a person (other than a company), resident in the State; and
- (ii) all income, to whomsoever it accrues, arising in the State.

The application of these principles is modified by various double taxation agreements.

For income tax purposes, income is classified under certain heads or schedules. The four schedules now existing deal with interest (taxed at source) on certain government and other securities (Schedule C), the profits of trades, professions and vocations and certain other income such as rents, interest on loans and income from abroad (Schedule D), income from an office, employment or pension (Schedule E) and income from distributions received from a resident company (Schedule F).

The tax is charged for a year of assessment beginning on 6 April, at graduated rates in the case of individuals and at standard rate in the case of all other chargeable persons.

For individuals, income tax is also graduated by means of various allowances, deductions and reliefs. The allowances and deductions depend on the personal circumstances of the taxpayer and in effect exempt the first slice of income. The amount of the allowances, etc., is deducted from total income in arriving at taxable income.

Normally the allowances and reliefs are given only to an individual who is resident in the State; but in certain cases, including that of an Irish citizen resident abroad, a proportion of the allowances may be given in the ratio which the taxpayer's income liable to Irish tax bears to his or her total income.

For married couples three options are available:

- (a) to be assessed as single persons,
- (b) to have the combined incomes of husband and wife treated as the husband's for income tax purposes; in this event the husband is entitled to a personal allowance amounting to twice that of a single person and to the benefit of double rate bands, and
- (c) separate assessment where option (b) is taken but the spouses wish to have the tax apportioned between them and each spouse made responsible for the tax attributable to his or her own income.

	1995-96	1996-97	1997-98	1998-99	1999-2000	2000-2001					
Expenditure on significant buildings	 A deduction in respect of the cost of maintenance, repair or restoration of a building (or of the maintenance or restoration of a garden or grounds of an ornamental nature whether attached or not attached (from 6 April, 1993) to such building) which is determined by the Commissioners of Public Works to be intrinsically of significant scientific, historical, architectural or aesthetic interest and by the Revenue Commissioners to be a building to which reasonable access is afforded to the public. The relief also applies to expenditure incurred in 1997-98 et seq. up to an aggregate of £5,000 per annum on: (a) the repair, maintenance or restoration of an "approved object", in an approved building or garden subject to the objects being on display in the approved building or garden for a period of at least two years from the year in which the relief for the contents is claimed (b) the installation, maintenance or replacement of a security alarm system, and (c) the provision of public liability insurance for an approved building or garden. An approved object is an object (including a picture, sculpture, book, manuscript, piece of jewellery, furniture or other similar object) or a scientific collection which is owned by the owner or occupier of the approved building.

NOTES ON TABLE IT1

- (a) Such couples may elect for separate assessment in which case the tax otherwise payable by the assessable person on their combined incomes is apportioned between the spouses in accordance with certain rules. The increase in the standard rate tax band for 2000-2001 is restricted to the lower of £6,000 or the amount of the income of the spouse with the lower income. The increase is not transferable between spouses.
- (b) Where the total income slightly exceeds the amounts shown, marginal relief is given by confining the tax charged to 40 per cent of the excess for 1994-95, 1995-96, 1996-97, 1997-98, 1998-99 and 1999-2000. For 1999-2000 and 2000-2001 only two exemption limits apply-under 65 and 65 years of age or over.
- (c) Extended for 1991-92 and subsequent years to cross-frontier workers where their employment is of a kind that, within the State, would qualify for the PAYE allowance. Extended, subject to conditions, for 1994-95 and subsequent years to the children of proprietary directors and the self-employed (including farmers) who are full-time employees in the business of their parents.
- (d) This allowance is granted to employees paying the higher rates of PRSI.
- (e) Allowable expenses are restricted by reference to one-third of the excess of the cost of the car over the capital limit or, alternatively, by the same proportion as the excess of the cost of the car over the capital limit bears to the cost of the car, if this is more favourable to the taxpayer.
- (f) "Relevant earnings" is defined as non-pensionable earned income. For the years 1996-97 and 1997-98 the 15 per cent limit applies to individuals under the age of 55 and a limit of 20 per cent applies to individuals aged 55 or over.
- (g) Relief for interest on personal borrowings is confined to loans taken out for the purchase, repair or improvement of the borrower's sole or main residence. This relief is subject to a percentage limit (80 per cent for 1994-95 to 1999-2000 inclusive) of the lesser of
 - (a) the amount of interest actually paid or
 - (b) (i) £5,000 for a married couple,
 - (ii) £3,600 for a widowed person,
 - (iii) £2,500 for other individuals.

For 1994-95 and subsequent years the percentage restriction does not apply for the first five years of assessment.

For 1994-95 onwards the relief will be restricted to the standard rate of tax on a phased basis. Thus, for 1996-97 relief was given on one quarter of a taxpayer's allowable interest at his/her marginal rate with three quarters relieved at the standard rate. For 1997-98 et seq. all interest is allowable at the standard rate.

The effect of the above restrictions is reflected in the maximum relief amounts shown in the Table for 1995-96 et seq.

The 80% and £100/£200 (single/married respectively) restrictions are abolished with effect from 6 April, 2000.

- (h) To qualify for the relief the individual must be a full-time director or employee of the company and must not, except in certain limited circumstances, have recovered capital from the company. No relief is granted on interest on a loan applied in acquiring shares issued on or after 20 April, 1990 if a business expansion scheme relief claim is made in respect of those shares. The interest deduction in arriving at total income is in addition to the deduction allowed for home purchase or improvement etc. The foregoing relief is abolished for loans applied on or after 29 January, 1992, if at the time the loan is applied, the company is a quoted company. For loans applied prior to that date, the relief is phased out as follows:
 - (i) in the case of a loan applied prior to 6 April, 1989, if the company is a quoted company at 6 April, 1992, for 1992-93 only 70 per cent of the interest which would otherwise qualify for the relief is relieved, for 1993-94 the percentage is 40 per cent and for 1994-95 no relief is granted.
 - (ii) in the case of a loan applied in the year 6 April, 1989 to 5 April, 1990 if the company is a quoted company on 6 April, 1993, for 1993-94 only 70 per cent of the interest which would otherwise qualify for relief is relieved, for 1994-95 the percentage is 40 per cent and for 1995-96 no relief is granted, and
 - (iii) in the case of a loan applied on or after 6 April, 1990, if the company is a quoted company at 6 April, 1994

for 1994-95 only 70 per cent of the interest which would otherwise qualify for relief is relieved, for 1995-96 the percentage is 40 per cent and for 1996-97 no relief is granted.

In the case of a company becoming a quoted company later than the relevant one of the foregoing dates for the second tax year in which the company became quoted only 70 per cent of the interest which would otherwise qualify for the relief is relieved. For the next tax year the percentage is 40 per cent and for subsequent tax years no relief is granted.

- (i) Relief is based on the amount of premiums paid in the year preceding this year of assessment.
- (j) Alternatively, total expenses incurred in excess of £200 by the taxpayer on himself or herself and dependents as a group, may be claimed.
- (k) This relief is granted at the standard rate for 2000-2001 22 per cent.
- (l) This relief applies to a payment made to an Irish university and to other specified educational establishments to enable it to undertake research in, or engage in the teaching of, certain approved subjects.
- (m) The value of shares appropriated to a qualifying employee is, subject to a maximum limit, exempt from income tax at the time of the appropriation. Any subsequent disposals of the shares may attract tax which will be ascertained by reference to a tapering scale linking the value of the shares for tax purposes with the length of time the shares were retained by the employee.
- (n) Subject to conditions, relief from income tax is available by way of a deduction from total income to individuals who invest long-term risk capital in ordinary shares of unquoted companies resident solely in Ireland and which are engaged in the State in certain manufacturing and / or service industries, certain research and development activities and trading activities on an exchange facility established in the Custom House Docks Area. Where the investment is made through an investment fund designated by the Revenue Commissioners for the purposes of the relief the minimum limit of £200 does not apply.
- (o) To qualify for this relief donations must be made to bodies approved by the Minister for Finance for the purpose of assisting such bodies to promote the advancement in the State of certain approved subjects connected with the arts.
- (p) This exemption is, subject to certain conditions, available to an individual aged 55 years or over or an individual who is permanently incapacitated by mental or physical infirmity from carrying on a trade of farming.
- (q) The gift must be accepted by the Minister and be for use for any purposes for or towards the cost of which Exchequer funds are provided.
- (r) The company issuing the shares must be one whose business consists wholly or mainly of the carrying on in the State of one or more trades or a holding company for such companies. The shares must be new ordinary shares issued at full market value which are fully paid up and not subject to any special restriction. The amount of £3,000 for 1995-96 and £5,000 for 1996-97 et seq. does not have to be invested all at once and may be spread over a number of years of assessment. The shares must be held by the individual for a minimum period of 5 years. A disposal of the shares within that period will result in a withdrawal of the relief (100 per cent if disposed of within 4 years and 75 per cent if disposed of after 4 years). The relief was extended to part-time employees and part-time directors for 1996-97 et seq.
- (s) Relief is available to owner-occupiers in respect of a dwelling newly-constructed or refurbished in certain designated areas in Dublin, Cork, Limerick, Waterford and Galway. The relief also applies in designated areas in other cities and towns with effect from the date that such areas are designated by the Minister for Finance. The individual who incurs the expenditure on construction or refurbishment must be the first owner and the first occupier of the dwelling after the expenditure has been incurred. The allowance may be claimed in each of the first ten years of the life of the dwelling following construction or refurbishment provided that the dwelling is the sole or main residence of the individual.

	€7,333,779,106	€7,093,061,086

A small amount of Schedule E tax (about £58 (€73.6) million in 1998/99) is paid otherwise than through Pay As You Earn. Precise particulars of the amount are not available.

Net Receipt: PAYE

Table IT4

Year	Number of Employers on Register	Number of Employees records returned by Employer
1994 - 95	137,447	1,772,245
1995 - 96	142,861	1,913,740
1996 - 97	148,308	2,058,967
1997 - 98	157,073	2,258,677
1998 - 99	166,130	2,467,398
1999 - 2000	174,490	2,663,327

Numbers of Employers and Employees.

Where an employee is engaged in more than one employment during the tax year and tax is deducted from his remuneration in each employment, separate employee records are required for each employment. Accordingly, the total number of employees liable to tax under Pay As You Earn is smaller than the aggregate number of employee records returned by employers.

Income Tax: Schedule E

£50,000			£13,552	27.10%	£12,012	24.02%	
		37.34%	£24,552	32.74%	£23,012	30.68%	
£100,000	£39,006	39.01%	£35,552	35.55%	£34,012	34.01%	

Effective rates of tax are computed by reference to personal allowances* for persons aged under 65 years, which for 2000-2001 include the special individual PAYE allowance* of £1,000. It also takes into account the exempt income limit of £4,100 per person and £8,200 for married couples. *From 6th April 1999 these allowances allowed at the standard rate only.

COST OF ALLOWANCES AND RELIEFS 1997-98 AND 1998-99

The following Table IT 6 shows the estimated cost in terms of revenue forgone of the personal allowances and the main reliefs and deductions allowable under the income tax system. A number of reliefs which apply both to individuals and companies is also included and the cost shown in relation to these reliefs covers income tax and corporation tax.

The allowances and reliefs listed in the table serve varying purposes. Many are essentially structural reliefs through which individual tax liabilities are adjusted to reflect relative taxable capacity. The main personal allowances are a good example of this since they may be regarded as part of the progressive income tax structure representing a band of income chargeable at a zero rate. Others, such as relief for interest paid in full or investment in corporate trades, are tax-based incentives in favour of specific groups or activities which are designed to promote certain aspects of public policy.

In computing taxable profits, account needs to be taken in some way of the depreciation of capital assets incurred in earning those profits. To this extent, the figures in the table of the "costs" of capital allowances should not be regarded as measuring a "loss of tax revenue" on profits. To compute such "loss", regard would have to be had to the excess of the amount of the capital allowances at current rates over the amount of the normal allowances.

The figures shown for the basic personal allowances (married, single and widowed) are the costs of these allowances as if the exemption limits did not apply. They do not include individuals who are not on Revenue records because their incomes are below the income tax thresholds. The cost figures for the exemption limits are based on the excess of the exemption limits over the basic personal allowances.

The figures of cost are for 1997-98 and 1998-99 except where otherwise indicated in the table and all figures are based on tax due in respect of assessments **for** each year and not on tax receipts **within** that year.

The figure against each allowance represents the additional tax which would become payable if the allowance were withdrawn assuming no consequent change in the behaviour of taxpayers (for example, in relation to the reliefs for savings), or the amounts of payments (for example, interest payable on certain savings schemes might need adjustment to take account of the new tax liability).

In the calculations, each allowance has been dealt with separately and on the assumption that the rest of the tax system remained unchanged. It would be therefore inaccurate to calculate the effect of withdrawing **all** the reliefs and allowances by simply totalling the figures. For example, the costs shown for capital allowances and stock relief are also calculated on the basis of separate withdrawal of these reliefs. Their combined cost would be greater than the sum of the separate costs because allowances are not always fully set off against available profits. For instance, a person with £1,000 gross trading profits, £1,000 capital allowances and £1,000 stock relief would pay no tax if **either** of the reliefs were withdrawn but would pay tax on £1,000 profits if **both** reliefs were withdrawn. In this case, the cost of each relief separately is nil but the combined cost is tax on £1,000. Basic data is not available to enable an estimate of the combined cost of these reliefs to be made.

Finally, the estimates shown in many cases are tentative and are subject to revision in the light of later information. Some of the cost figures included in the table for 1997-98 reflect revisions to figures previously published in the 1999 Report.

Table IT6 (continued) Cost of allowances and reliefs 1997-98 and 1998-99

NOTES ON TABLE

- (1) Figures accompanied by an asterisk * are particularly tentative and subject to a considerable margin of error. In some cases the figures refer to the corresponding calendar years. Where this occurs it is indicated by +.
- (2) The cost figures for the exemption limits are based on the excess of the exemption limits over the basic personal allowances. They include the cost of marginal relief for taxpayers whose incomes are not greatly in excess of the exemption limits.
- (3) The figures shown for the basic personal allowances (married, single and widowed) are the costs of these allowances as if the exemption limits did not apply. They do not include individuals who are not on Revenue records because their incomes are below the income tax thresholds.
- (4) In the absence of other information, tax has been assumed at the standard rate even though a different rate might be appropriate in many cases.
- (5) "Other" relates to borrowings for purposes such as acquiring an interest in a company or partnership or to pay death duties.
- (6) The cost of exempting the income of charities, colleges, hospitals, schools, friendly societies, etc. from income tax includes the sums repaid in respect of tax credits and income tax deducted at source (certain dividends, other investment income and payments received under covenant). It also includes the cost of exempting certain bodies from the deduction on income arising from government securities. Information is not available about other income received gross.
- (7) Except where otherwise indicated, the costs included for corporation tax are by reference to accounting periods which ended in the years to 31 March, 1998 and 31 March, 1999
- (8) The cost shown for capital allowances does not include any cost associated with "unused capital allowances", that is, capital allowances which are not absorbed by a company in the accounting period in which they arise because they exceed the amount of the company's profits of that accounting period which are available for offset. Unused capital allowances can be offset as losses against taxable profits arising in the previous accounting period and against certain profits arising in future accounting periods and can be offset against the profits of another company in the same group of companies. Approximately £1500 (€1905) million of unused capital allowances were claimed in respect of 1998/99 accounting periods but as the proportion of this item which is included in previous years losses and in group relief is not seperately identifiable a reliable estimate of the cost of the capital allowance element cannot be provided.
- (9) The estimated cost relates to pre-1 August, 1994 developments. Projects commenced after this date for rented residential accommodation are subsumed into the total figures for the new urban renewal scheme commencing on that date and will no longer be separately identifiable.
- (10) The cost does not include any notional cost associated with IFSC companies. The International Financial Services activity in Ireland represents new business which has developed as a result of, among other things, the concessionary tax rate. This means that as the cost of the concessionary rate is not just the difference between the concessionary tax rate and the full tax rate, it is therefore not quantifiable. In regard to the cost shown for the effective rate of 10 per cent for manufacturing and certain other activities, no account is taken of the fact that without these incentives, many enterprises may not have set up here. To the extent that profits earned by such enterprises would not have been available for Irish tax purposes, part of the cost figure shown might be regarded as notional.
- (11) This figure includes preference share financing which is a minor element in the total.

RELIEFS IN RESPECT OF WHICH COSTS ARE NOT QUANTIFIABLE OR ARE NEGLIGIBLE OR ARE NOT IDENTIFIABLE WITHIN TOTAL AGGREGATES.

Certain payments made by a person carrying on a trade or profession to an Irish university or other qualifying educational establishment;

Relief for donations made to certain bodies engaged in the promotion of the arts;

Exemption in respect of certain income derived from the leasing of farm land;

Expenditure on significant buildings;

Expenditure on certain buildings in designated inner city area;

Relief for new shares purchased on issue by employees;

Relief for donations made to "Cospoir" The National Sports Council;

Relief for investment in research and development;

Exemption in respect of stallion stud fees;

Exemption of profits arising from commercially managed woodlands;

Relief from averaging of farm profits;

Exemption for income arising from payments in respect of personal injuries;

Exemption of certain payments made by Hemophilia HIV Trust;

Exemption in respect of income arising from certain patents;

Exemption in respect of payments made under the Enterprise Allowance Scheme;

Exemption of income from foreign trusts;

Exemption of lump-sum retirement payments;

Relief for allowable motor expenses;

Tapering relief allowable for taxation of car benefits-in-kind;

Relief for gifts to The Enterprise Trust Ltd.;

Reduced tax rate of 10% for authorised unit trust schemes;

Reduced tax rate of 10% for special investment schemes;

Exemption of certain grants made by Údarás na Gaeltachta;

Relief for donations made by companies to First Step Ltd.;

Reliefs for activities related to the Customs House Docks Area and Shannon Airport Customs-Free zone;

Relief for investment income reserved for policy holders in life assurance companies;

Allowances for double-rent, owner-occupier and expenditure on historic buildings in Urban Renewal areas *;

Relief for various business-related expenses such as staff recruitment, rent, legal fees, and other general expenses;

Exemption in certain circumstances on quoted bearer Eurobonds;

Exemption of payments made as compensation for loss of office;

Tax relief for heritage items;

Renewal scheme for traditional seaside resorts;

Relief for gifts made to designated schools.

* See estimated cost included for capital allowances under the heading "Income Tax and/or Corporation Tax" in Table IT6 - Cost of allowances and reliefs 1997/98 and 1998/99

INCOME DISTRIBUTION STATISTICS

The information on personal incomes which is given in Tables IDS 1 to 19 has been collected in the course of the administration of income tax for the income tax year 1998-99.

The tables in this Report are similar to the tables in the 1999 Report.

The tables relate to income assessed in respect of the tax year 1998-99 by reference to tax returns which were processed up to 19 April, 2001. The income taken for the purposes of the tables is in general that of the year 1998-99.

The information relating to employees from whose income tax was deducted under Pay As You Earn is based on completed end-of-year returns from employers of which up to 96 per cent were processed at the relevant time.

Tables IDS 7 and 14 contain estimated income distributions of proprietary directors of incorporated family businesses, estimated by reference to the level of end-of-year returns received for 1998-99 up to 19 April, 2001.

The information relating to Schedule D assessments is based on assessed Self-Assessment Returns for 1998-99, representing some 90 per cent of the expected total.

Proprietary directors, while formally taxed under the PAYE system, are akin to the self-employed and should be taken into account when analysing the income distribution of the self-employed sector generally. This approach is reflected in the compilation of tables IDS 2 and 9.

The timeliness of the historical data on incomes and tax included in the tables is directly influenced by the need to have not less than 90 per cent of tax returns represented in the figures. Because of the return filing date for Self-Assessment returns from Schedule D taxpayers, the most recent year for which relatively complete and comparable data can be provided in this report for both Schedule D and PAYE income distribution is 1998-99.

Employees whose income is not high enough to bring them within the ambit of Pay As You Earn are excluded. The employees in question are those in receipt of remuneration at a rate not exceeding £6 a week (£26 a month) in the case of full time employees or £1 a week (or £4.50 a month) where the employee has other employment.

Income related to part only of a year, where there has been a change of employment during the year, is not grossed up to the corresponding annual amount.

The information in the tables covers some 1,148,881 individuals who were effectively liable to income tax for 1998-99 (see Table IDS 17), as compared with a total of just over 1,530,656 individuals included in Table IDS 1. The difference between the two figures is accounted for by individuals who were found to be not liable to tax because of the operation of the personal allowances or exemption limits.

A married couple who has elected or who has been deemed to have elected for joint assessment is counted as one tax unit and their incomes are aggregated in the statistics.

The following are the definitions adopted for use in connection with the compilation of the statistics set out in the tables.

Gross Income is the income brought under the review of the department before adjustments are made in respect of capital allowances, interest paid, losses, allowable expenses, retirement annuities etc. but after deduction of superannuation contributions by employees. It includes certain income belonging to individuals whose total income is below the exemption limits. It does not include certain other income which is not income for tax purposes or is exempt from tax such as profits or gains from stallion fees, profits from commercial forestry and certain income from patent royalties, certain investment income arising from personal injuries, child benefit, maternity benefit and unemployment assistance paid by the Department of Social, Community and Family Affairs, certain earnings of writers, composers and artists, bonus or interest paid under Instalment Savings Schemes operated by An Post, interest on certain Government securities, certain foreign pensions which are exempt from tax in the foreign paying country, portion of certain lump sums received by employees on cessation of their employment, statutory redundancy payments and certain military pensions. Other income sources which are either not included or not fully included are employee contributions to pension funds (tax deductible), interest income that does not need to be declared or is not recorded (but from which tax has been deducted), unemployment benefit and disability benefit (non-recording of non-taxable amounts and of amounts taxed by restriction of repayments or indirectly through employers in the PAYE system), and the incomes of certain selfemployed persons, including some farmers, as well as some individuals in receipt of pensions, who are not processed annually on tax records because their incomes are below the income tax thresholds.

(Rounding of constituent totals accounts for slight differences between some figures in this table and corresponding figures in other tables).

Corporation Tax

• Table CT1 Exchequer Receipt and Net Receipt

Corporation Tax was introduced in the Corporation Tax Act of 1976.

Subject to certain exemptions and reliefs, corporation tax is charged on all profits, wherever arising, of companies resident in the State, and profits of non-resident companies in so far as those profits are attributable to an Irish branch or agency.

The standard rate of corporation tax is 24 per cent with effect from 1 January 2000. A 25 per cent rate of corporation tax also applies to income chargeable under Case III, IV and V of Schedule D and on income from working minerals, petroleum activities and 20 per cent on income from dealing in or developing land other than construction operations. The tax is assessed on the profits of a company's accounting period which is usually of twelve months' duration.

"Preliminary tax", that is, an amount of tax of not less than 90 per cent of the tax ultimately found to be due for an accounting period is payable within six months of the end of a company's accounting period. The return of income must be filed within nine months of the end of the accounting period. Any balance of tax payable is due within one month of the date of the assessment.

Profits derived from certain activities carried on within the State are chargeable to corporation tax at an effective rate of 10 per cent. A list of qualifying activities for this rate, together with a more detailed description of this tax, is to be found in "Leaflet No. 3", an explanatory leaflet available from the Office of the Revenue Commissioners, Direct Taxes Policy, Legislation & Statistics Division, Dublin Castle, Dublin 2.

Corporation Tax Distribution Statistics

- Table CTS1. Corporation Tax Statistics. Distribution of Incomes and Tax for accounting periods ended in 1999-2000
- Table CTS2. Corporation Tax Statistics. Distribution of selected allowances, reliefs and deductions for accounting periods ended in 1999-2000
- Table CTS3. Corporation Tax for accounting periods ended in 1999-2000

Tables CTS1 to CTS3 contain statistics which have been collected in the course of the administration of corporation tax.

Source of the data

These statistics are based on the details taken from the corporation tax return form CT1 as entered on the live computer file. The 1999-2000 statistics were taken from the live corporation tax file on 15 May, 2001.

The reference period for the corporation tax statistics

Unlike income tax, there is no set year for corporation tax. Corporation tax is assessed on profits calculated by reference to a company's own accounting period. For the sake of consistency with the existing income tax-based income distribution statistics the corporation tax statistics have been compiled by reference to a basis period of accounting periods ended between 1 April and the following 31 March. The corporation tax statistics presented in this report are for 1999-2000 accounting periods and cover all companies with returns on the live file for accounting periods ended between 1 April, 1999 and 31 March, 2000.

The income classifier used in the statistics

The two main income concepts on which the corporation tax statistics are based are "adjusted profits" and "Net Case I" income. The two are related. Adjusted profits are the trading profits from a company's accounts, plus expenses not allowable for tax, plus accounting depreciation. In essence, Net Case I income is adjusted profits minus tax depreciation. In Tables CTS1 and CTS2 the statistics are classified by ranges of Net Case I income.

Corporation tax rates

The average rates of corporation tax applying to profits earned in 1999-2000 accounting periods are indicated in table CTS3. The averaging of the tax rates arises because a number of rates can apply to the profits earned in an accounting period. The standard rate of Corporation Tax was 32% for profits earned from 1 January, 1998, with a rate of 25% applying to the first £50,000 of a company's (or group's) annual income. The standard rate was reduced from 32% to 28% for profits earned from 1 January , 1999, with a rate of 25% applying to the first £100,000 of a company's (or group's) annual income. The standard rate was reduced from 32% to 28% for profits earned from 1 January , 1999, with a rate of 25% applying to the first £100,000 of a company's (or group's) annual income. The standard rate was further reduced from 28% to 24% for profits earned from 1 January , 2000, with a rate of 12.5% applying to companies whose total trading income (other than trading income taxable at the special 10% or 25% rates) did not exceed £50,000. Profits are calculated by reference to company accounting periods. Where an accounting period straddles a number of financial years, the profits are apportioned between those years and the rate of tax applicable to each financial year is applied to the proportion of profit falling within it. For example, a company with an accounting period ending on 31 January, 2000 would have 11/12ths of its profits taxed at the standard rate of 28%, subject to 11/12ths of the first £100,000 of its income being taxed at 25% and 1/12ths of its profits taxed at the standard rate of 24%.

A note on abbreviations and headings used in the tables

In Table CTS1 the term "ACT Due" refers to advance corporation tax. In calculating corporation tax due, credit is given for any ACT already paid. The heading "Main CT Due" refers to corporation tax payable over and above any ACT already paid. This is why ACT appears as a relief in Table CTS3. Also, in table CTS3, a total tax amount is shown including ACT, WHT and IT. The terms WHT and IT refer to withholding tax on professional fees and income tax, respectively. They are included to show the overall tax liability of the companies.

Table CTS3

Table CTS3 shows all the items on the corporation tax return form CT1 for accounting periods ending in 1999-00 and their aggregate values as contained on the return forms filed in time to be included in the statistics. The table follows the sequence of the corporation tax assessment process in detail.

It should be noted that where a computation on the tax return produces a negative value for net Case I, net Case V, net income chargeable to tax or tax less reliefs, the corporation tax calculation resets the negative value to zero. For example, the deduction of £7,784.1 million of capital allowances, losses forward and miscellaneous reliefs from the combined adjusted profits plus balancing charges plus investment income total of £26,920.6 million would produce an apparent sum of £19,136.5 million for net Case I income - in fact, the actual net Case I figure is £21,273.7 million. Companies are not always able to absorb the full amount of allowances and reliefs available to them.

Table CTS3 (Contd.) Corporation Tax for Accounting Periods Ended in 1999/2000

Capital Gains Tax

• Table CGT1 Exchequer Receipt and Net Receipt

• Table CGT2 Capital Gains Tax Assessments

Capital Gains Tax was introduced in the Capital Gains Tax Act of 1975.

Capital gains tax is chargeable on the gains arising on the disposal of assets other than that part of a gain which arose in the period prior to 6 April, 1974. Capital gains tax is also chargeable on the transfer of assets abroad in certain circumstances. Any form of property (other than Irish currency) including an interest in property (as, for example, a lease) is an asset for capital gains tax purposes.

The charge arises to a chargeable person when the asset is disposed of. The tax is charged by reference to a year of assessment, that is, the year ending on 5 April. Self Assessment for capital gains tax for both individuals and companies was introduced with effect from the year of assessment 1990-91.

The rates of tax have varied since the introduction of the tax. For the year 2000-2001 a rate of tax of 20% applies to the great majority of disposals and which applies irrespective of the length of period of ownership of the asset.

Chargeable gains of companies other than those arising from the disposal of development land are, in general, charged to corporation tax and not capital gains tax. These chargeable gains will, in effect, be taxed at the equivalent of the rate of capital gains tax - see above.

Various exemptions and reliefs from capital gains tax are provided. Details of these and a more detailed outline of this tax are to be found in "Leaflet No. 3", an explanatory leaflet which is available from the Office of the Revenue Commissioners, Direct Taxes Policy, Legislation & Statistics Division, Dublin Castle, Dublin 2.

Table CGT2

Capital Gains Tax – Assessments

The following table contains figures relating to capital gains tax assessments raised for the years of assessment ending between 5 April, 1994 and 5 April, 2000.

Year	No. of Assessments	Net Tax Payable
		£ million
1994-95	4,840	72.4
1995-96	6,437	76.1
1996-97	8,129	133.5
1997-98	15,560	199.9
1998-99	18,974	351.1
1999-00	20,889	423.0

Note

The figures in the above table are subject to adjustments in respect of discharges and repayments still to be made.

The numbers of assessments for each year are likely to increase over time as tax returns are received and processed. This applies especially to the most recent year shown in the table.

VALUE-ADDED TAX

- Table VAT1. Budget Estimate, Exchequer Receipt and Net Receipt
- Table VAT2. Analysis of Net Receipts by Tax Rates
- Table VAT3. Number of Registrations
- Table VAT4. Registrations by trade sector

VAT is a tax on supplies and importation of most goods and services. Supplies are taxed at all stages of production and distribution. Persons supplying taxable goods or services within the State in the course or furtherance of business are required to register and account for tax if their turnover is in excess of certain limits. Persons whose turnover does not exceed the appropriate limit may register or not, as they choose.

With the formation of the Single Market, liability for VAT also arises for traders and non-taxable entities (e.g. local authorities) in relation to goods acquired in other Member States. In practice, no VAT is payable in the Member State of purchase, but a liability to Irish VAT arises when the goods are brought into the State.

Goods imported from outside the EU are liable to tax on importation at the rate applying to the supply of the same goods within the State. Registered persons who satisfy certain conditions may defer payment of tax at importation to the 15th day of the month following importation.

Registered persons are liable for tax on all taxable goods and services supplied by them within the State. In the case of transactions with other registered persons, invoices showing the tax separately must be issued. Cumulative taxation is avoided by allowing registered persons to deduct the tax borne or payable on their purchases and imports from the tax payable on their supplies. Deduction is allowed in respect of all purchases (including acquisitions from other Member States) and imports, for the purposes of a taxable business, with a few exceptions, mainly motor cars, petrol, meals and entertainment. Export sales (i.e. outside the EU) are zero rated.

Certain traders who are primarily engaged in making supplies of goods to VAT-registered persons in other Member States or exporting goods to non-EU countries can avail of a facility whereby most supplies (including intra-Community acquisitions and imports) made to them can be zero rated.

The usual taxable period for VAT is two calendar months. Returns for each two-month period are due between the 10th and 19th of the month following the taxable period. There is provision whereby certain traders may be allowed to make their VAT returns on an annual basis. Also in certain circumstances, where a trader is in a permanent repayment situation, he/she may be eligible to make returns on a monthly basis. The rates of VAT at the beginning of 2000 were zero, 10 per cent, 12.5 per cent and 21 per cent, with a rate of 4.0 per cent applied to livestock, live greyhounds and to the hire of horses. The 4.0 per cent rate was increased to 4.2 per cent with effect from 1 March, 2000.

Date	Zero	Special	Low	Standard	High

1.3.′99	0	4.0	12.5	21	-	
1.3.′00	0	4.2	12.5	21	-	

The rates of VAT which have applied from the introduction of the tax to the end of 2000 are as follows:-

Notes

- (a) The rate of 11.11 per cent applied only to dances: they were liable at the low rate from 1.3.76 to 28.2.85 and at the standard rate thereafter.
- (b) Goods previously liable at the high rates have been liable at the low or standard rates since 1.3.79. This reduction in VAT charges was effected in conjunction with an increase in excise duty.
- (c) These rates applied to livestock only. Prior to the introduction of the 2.2 per cent rate, the 23 per cent rate had applied to livestock but only on part of the consideration for supplies; this had resulted in an effective rate of 2.0 per cent.
- (d) The 10 per cent rate introduced in 1985 applied almost entirely to goods and services previously liable at the 5, 8 and 18 per cent rates.
- (e) The standard rate of 23 per cent introduced in 1985 applied to almost all goods and services previously liable at the 23 and 35 per cent rates.
- (f) The 5 per cent rate applied to electricity only. This rate was increased to 10 per cent from 1 March, 1990.
- (g) The 12.5 per cent rate introduced in 1991 applied to electricity and telecommunication services and certain other goods and services previously liable at the 10 per cent rate.
- (h) The 16 per cent rate introduced in 1992 applied to telecommunications, adult clothing and footwear and certain goods and services previously liable at the 12.5 per cent rate.
- (i) The 10 per cent and the 16 per cent rates were abolished on 1 March,1993. However, in the case of sales of domestic dwellings, lettings of holiday accommodation and short-term hiring of cars, the 10 per rate continued to apply, where a fixed charge agreement or contract had been entered into before 25 February, 1993.

Registrations cancelled in 2000	197,631 2,349
Registrations effective on 31.12.00	195,282

Table VAT4.

This table reflects trade classifications of traders which are based on the descriptions of economic activities contained in the General Industrial Classification of Economic Activities within the European communities known as NACE. This classification is subject to an ongoing process of update and revision to reflect changes in economic activities and provides a more reliable basis for sector analysis than the system based solely on trade classification at the time of registration which was used before 1998.

Registrations by Trade Sector	31 Dec. 1999	31 Dec. 2000
Accommodation (including Camping, Holiday Homes, Hotels, Guest Houses)	2,457	2,583

Sheriff and Solicitor Enforcement

- Table ENF1 Value by Taxhead of Certificates issued to Sheriffs in 2000
- Table ENF2 Details of Judgements Registered

ENFORCEMENT BY SHERIFFS

(Notes on Table ENF1)

- The greater part of enforcement activity consists of the issue of certificates to Sheriffs under Section 962 of the Taxes Consolidation Act, 1997. In the course of 2000, the number of certificates issued was 16,199 with a face value of £188m (€239m).
- 2. Since 1 November 1998, Sheriff Certificates are consolidated and may include more than one taxhead on each referral.
- 3. The face value of the certificates can reflect a high degree of estimation where a taxpayer fails to respond to earlier demands for returns, the liability referred to the sheriff is estimated by Revenue.
- 4. The total value of payments made directly to Sheriffs in 2000 was £54m (€69m).

JUDGEMENTS REGISTERED BY THE COLLECTOR-GENERAL

(Notes on Table ENF2)

- 1. In the course of 2000, the number of judgements registered by the Collector-General in respect of tax and interest was 349, with a face value of £10.8m (€13.7m)
- 2. The number of cases referred for enforcement by court proceedings in 2000 was 4,714. Judgements are not obtained in all cases where proceedings are taken, as payment can be made before judgement stage is reached. Similarly, not all judgements are registered. Payment can be made after judgement is obtained, in which case registration of that judgement is not then effected.
- 3. The total amount collected as a result of Solicitor enforcement in 2000 was £26m (€33m).
